Title Slide

- Designing a Modern Data Pipeline Architecture
- Using Apache NiFi, Flink, and Airflow with Iceberg
- Presenter: Abdul Al Mamun
- Organization: TrueManTrueHelp

Abstract / Overview

- Open-source modular ETL pipeline
- Real-time + batch analytics
- Tools: NiFi (ingest), Flink (transform), Airflow (orchestrate), Iceberg (store)
- Proven on Kubernetes with MinIO and Dremio

Q&A

- Thank you!
